

CASH DISCOUNTING PROGRAM

Benefits of the cash discounting program

- **Greatly reduces** or eliminates the processing costs associated with credit card acceptance.
- **No need to increase the costs of goods** and services to make up for lost profit due to credit card processing fees.
- **Transaction total is charged as one amount** on the cardholder statement. This reduces questions from cardholder and prevents chargebacks for unrecognized transactions.
- **Merchants pay a flat-fee of \$49.99/month** no matter how much you process or what volume you accept.
- **If you're not happy with cash discount**, you can switch to cost plus wholesale pricing any time.

Eliminate your processing fees

With processing fees increasing like never before, merchants are forced to pay outrageous fees to accept credit cards. Netevia Platinum offers a Cash Discount Program so businesses can eliminate up to 100% of their credit card processing fees and put money back into their business.

How does it work?

With the Cash Discount Program-you'll have the ability to pass along a small fee to your customers who choose to use their credit card. By doing this, you pay \$49.99 per month for unlimited processing no matter how many transactions or what volume you accept.

A Service Fee of up to 3.99% is applied to each transaction not paid for with cash or check. That's only \$1.99 on a \$50 transaction! By adding this small service fee, you'll offset almost all of your credit card fees-without increasing the cost of your products.
